Grade Crossing Inventory System (GCIS)
Release v2.8.1.0 (06/29/2018)
Release Notes

This document is intended for Railroad, Transit, and State users. The following items will be released on Friday, June 29, 2018.

1. **Online Form (Web User Interface [UI])**

   a. The email notification feature has been modified to include email notification for Delegated users associated with an updated crossing.

   b. A bug in the email notification feature has been fixed so that users who opt out of email notification for crossing updates do not receive the email notifications. Users can opt out of email notification for crossing updates by navigating to the User Management tab and removing the check box from the "Crossing Data Submitted for my Agency" selection.

2. **FRA Approved API (for File Upload)**

   a. The GCIS application email notification feature has been modified so that multiple updates made in one submission via the FRA Approved API generate a single email to registered users for Railroads (all crossings) and States (public crossings).

3. **FRA Approved Excel Templates (used for the File Upload feature)**

   a. The GCIS application email notification feature has been modified so that multiple updates made in one submission via the FRA Approved Excel Template generate a single email to registered users for Railroads (all crossings) and States (public crossings).

4. **Data Validation**

   a. No modifications in the current release.

5. **Public Website**

   a. No modifications in the current release.

6. **Documentation Inventory**
