GCIS Release Notes
GCIS v3.2.0 (06/21/2022)

This document is intended for Railroad and State users of the Grade Crossing Inventory System (GCIS). The following items are for planned GCIS 3.2.0 release on June 21, 2022.

1. **REPORTS:**

   - Changes were made to the "Days Overdue Report" and "Overdue Summary Report" to exclude closed crossings based on the CrossingClosed field instead of the ReasonID field.
   Note: Only applicable to Railroad agencies.

2. **API SUBMISSIONS AND EXCEL DATA UPLOADS:**

   - GCIS has been fixed to capture the values submitted via the API for "Specify Type" for III.2.J, Other MUTCD Signs.
   Note: Refer to the electronic submission guide for valid values in Appendix A or B.

3. **GCIS WEB FORM:**

   - GCIS has been fixed to generate the .pdf version of the Inventory form ("Save a PDF Copy") from the "Update Existing Crossing" web form, when "Date Change Only" is selected.

4. **PENDING RECORDS:**

   - On January 31, 2022, Pending Record Notification and Cancellation was added to GCIS. With this change, GCIS automatically e-mails Pending Record Notifications to Agencies that created pending record(s), 19 days after the record was last saved. If the pending record is not saved again, or not cancelled by the agency that created the record, GCIS automatically cancels these record(s) 21 days after the record was last saved.

- On January 17, 2022, pending records that were pending prior to September 1, 2021 were cancelled.

5. VALIDATIONS:

- Validation Error 512 (for a validation that already exists) has been added to the GCIS error table: 'Error 512: Field IV.5: Other crossing surface description is provided, but 'Other' type is not specified.'
  Note: The validation for this error was already implemented in a previous GCIS Release.

6. Documentation Changes

- GCIS documentation has been updated to reflect GCIS version 3.2.0. Changes made to the documents are listed in the Revision Summary Table found in the beginning of each document.
  Note: For changes and clarifications see electronic submission guide, and Web users guide
